

Surface compliance risks in employee communications to support timely action.

Analyse employee communications in real time to surface and prioritise compliance risks, including competition, anti-bribery and corruption, labour and employment, and more.

Act On Risk Faster

Analyse 100% of employee communications in real time and surface high-risk messaging with AI that evaluates meaning and intent, not just keywords.

Prioritise Risk Review

Deliver high accuracy with minimal false positives through AI analysis that monitors risk trends and enables teams to focus on the highest-risk communications.

Why Epiq Legal Solutions

Experience the advantage of solutions from a partner specialising in legal.

Drive decisions with AI solutions that combine people, process, technology, and data.

Leverage AI that understands **context and intent.**

Support over **75 languages.**

Differentiators

- Identify risk with greater accuracy and fewer false positives using patented AI models purpose-built for competition, anti-bribery and corruption, labour and employment, and more.
- Streamline investigations with integrated workflows that connect risk identification directly to review, escalation, and action.
- Deploy globally with configurable models and support for complex organisational structures, roles, and languages.

Global Snacks Manufacturer Implements competition Risk Prevention at Scale
