Why Epiq Legal Solutions?

Experience the advantage of solutions from a partner specializing in legal and compliance.

Drive decisions with AI-enabled solutions that combine people, process, technology, and data.

Epiq Differentiators

- Microsoft Security Solutions Partner with Advanced Specialization in Information Protection and Governance.
- End-to-end support through a single provider for related discovery services.
- Customized support through playbooks, policies, procedures, and training.
- Industry Experience including energy, financial services, healthcare, insurance, manufacturing, pharma, and technology.

Advisory and Implementation Services Features

Protect against data leaks with a risk assessment to identify and address vulnerabilities.

Understand functional business needs through documentation of use cases and regulatory requirements.

Gain stakeholder buy-in with clear data security policies, associated actions, and defined workflows.

Meet your organization's unique needs through custom workflow creation, policy design, and connections to multi-cloud data sources.

Automate data protection within your organization using thousands of customization options, including encryption and rights protection.

Create an internal center of excellence through comprehensive consulting and training.

Reduce Risk

Managed Services Features

Seamlessly move to a managed services model with an implementation plan that is executed in a crawl, walk, then run approach.

Fortify data loss prevention strategies with real-time oversight and blocking of possible data leaks.

Respond quickly to data security issues with defined and documented escalation and communication procedures.

Create consistent employee-facing processes with defined remediation and escalation workflows for all verified alerts.

Meet business-defined SLAs with policy configurations, documented methodologies, ongoing reporting, and defined triage, remediation, and escalation actions workflows.

Reduce false alerts and unnecessary restrictions, as experts quickly and accurately manage threats.

Maintain Security
